

In 2009 Showplace was asked by Fairford Air Tattoo event organisers to provide the 90m² public information centre to enhance and improve their customers experience.

In subsequent years Showplace has continued to provide more quality structures to the event each year, for a variety of purposes from hospitality units to sponsors facilities and information centres, air crew facilities and lost children.

In 2013 showplace provided 5 separate facilities to the event, each fully branded and fitted out as required with furniture, counters, AV, electrical items, decking and plants.
